	> Stretch Film Wrapped		12 /12 or 8/12
Our alfalfa is <b>NON-GMO</b> . We pre-screen all alfalfa stacks for the presence of RoundUp Ready® Alfalfa traits and reject all positive stacks.			
All inventory is monitored using a RFID tagging system. This provides for bale-by-bale inventory accountability and full product traceability.			
All raw materials for pressed hay pass through a metal detection system prior to pressing to prevent metal contaminants from reaching finished goods.			

Bluegrass is subject to limited availability. Customers interested in Bluegrass are encouraged to place an annual order prior to June 1st of each year.
